

LIVELY STORY OF GATES HOME

Divorce Suit In Milwaukee Causes Amusement To Spectators This Morning.

EMERY DRULEY TELLS OF DRINKS

Helped Finish Two Bottles With Mrs. Gates On His Visit To The City In January Of 1906--Was Good Witness

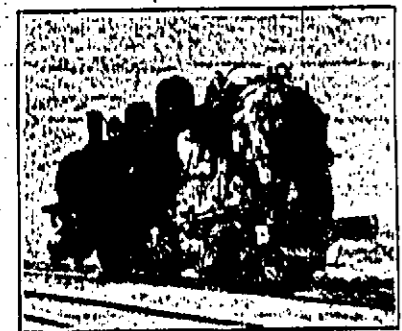

(SPECIAL TO THE GAZETTE.)
Milwaukee, Wis., Dec. 13.—Lively description of high life in a city and its effect on a rural visitor added an element of humor to the Gates divorce trial this morning, which has heretofore been sully musing.
The comic interlude was furnished by Emery Druley of Milwaukee, who told of a visit to the Grand avenue mansion on January 31, 1906, at which time he affirmed that he investigated the contents of various champagne bottles with disastrous effect.
Mr. Druley was eloquent to a degree and continued to be so through the cross-examination until he met with a rather startling surprise in the shape of an affidavit which puzzled him seriously.
Mr. Druley on taking the stand testified that he was a visitor at the Gates home on the date mentioned.

He went to Mr. Gates' office in the afternoon and was given an automobile ride about the city. Mr. Gates, Mrs. Gates, Harry Gates, Mr. Druley and a friend of his named Prescott formed the party.
Between five-thirty and six o'clock they went to the Gates home where they were entertained at dinner. Mr. Druley remained as a guest of Mr. Gates over night.
"Was any wine served at dinner?" asked the lawyer.
"We had champagne," said the witness, with reminiscent gleam in his eye.
"How much was served?"
"Two bottles."
"Who drank the champagne?"
"Mr. Gates drank three or four. Mr. Prescott drank one glass of champagne, and Mrs. Gates and I finished the rest."

NO LOSS OF LIFE IN MONDAY'S WRECK

Duluth Special Struck Freight Train Below Beloit But No One Will Die from Injuries.

Despite the fact that seven persons, including four trainmen, were injured in the wreck on the North-Western road just below Beloit on Monday night, no one was killed and the injured are all steadily improving.

ENGINE NO. 1313.

Early Tuesday morning the staff photographer of the Gazette visited the scene of the wreck and took the two accompanying photographs. From the appearance of engine No. 1313 it can be seen that it had some hard usage and it is wonderful that it did not meet death for the occupants of its cab which was entirely demolished. The two-column cut shows the same engine on the track and the big steam wrecking machine of the road, which was brought up from Chicago on rush orders to clear away the tracks. This powerful machine is one of the essential features of modern railroad engineering and it accomplished in less than eleven hours what in former days would have taken at least two days.

ST. LOUIS TO HAVE AUTOMOBILE SHOW

Great Jal Alai Building Will Be Scene of Big Exhibition Which Opens Tomorrow.

(SPECIAL TO THE GAZETTE.)
St. Louis, Mo., Dec. 13.—Everything is in readiness for the opening tomorrow of the annual St. Louis Automobile show. The great Jal Alai building, in which the exhibition is to be held, is filled with the latest models of motor cars from the leading manufacturers of America and Europe. The show will continue through all of next week.

Head of Giant Moose: Landlord John F. Sweeney of the Grand hotel this morning received from British Columbia the mounted head of a giant moose, probably the finest specimen ever seen in this locality. The trophy was secured through a friend in Milwaukee and will be placed in the hotel lobby.

MORE MEN WORK IN THE MINES AT GOLDFIELD TODAY

(BY ASSOCIATED PRESS.)
Goldfield, Nev., Dec. 13.—That the number of men working on the Consolidated and Mohawk properties today is greater than yesterday is the claim of the mine-owners' association this morning. No strike-breakers have yet arrived, though a train load is looked for later in the day. There is no excitement.

CORTEYOU SAYS ONLY ANOTHER OF THE LIES

(BY ASSOCIATED PRESS.)
Washington, D. C., Dec. 13.—In answer to the inquiries as to the report which had gained some currency here, that Secretary Cortelyou is about to resign from the cabinet, the secretary's sole comment was "that's another lie."

MAKES A RECORD FOR WALK FROM HERE TO BELOIT

(BY ASSOCIATED PRESS.)
Oscar F. Halverson started yesterday afternoon from his home, 58 Cherry street, and walked from there to the City Park, Beloit, a distance of 14 1/2 miles by the odometer he carried, in two hours and forty-five minutes. He thinks that he can take off fifteen minutes more on another trial.

GREAT SQUADRON OF BATTLESHIPS READY

Task of Fitting Fleet For Cruise to Pacific Has Been Enormous One—Voyage Begins Monday.

(SPECIAL TO THE GAZETTE.)
Norfolk, Va., Dec. 13.—As a result of more strenuous activity than has manifested itself in the American navy since the days of the war with Spain, the great battleship squadron which is to go to the Pacific coast, is in Hampton Roads today practically in complete readiness for the start on its long voyage, which begins on Monday morning next. The task of fitting up the vessels of the fleet has been one of enormous proportions and everyone from Admiral Evans down to the marines and janitors is glad that the work is over and the cruise about to begin.

Europe—Home again! And just see what he has brought. It is estimated that over 500,000 dollars have left this country for Europe during the past few weeks. Each foreigner takes about two hundred dollars with him.—News Item.

CENTRAL LEAGUE DEBATES TONIGHT

Five Great Western Universities Interested in Question of Exclusive Federal Control of Interstate Commerce.

(SPECIAL TO THE GAZETTE.)
Lincoln, Neb., Dec. 13.—The Central Debating League of America, the membership of which is made up of the state universities of Minnesota, Wisconsin, Illinois, Iowa and Nebraska, is to hold its second annual debate tonight. The question chosen for debate is as follows: "Resolved, That the Federal Government should have exclusive control of all transportation corporations doing an interstate business. Constitutionally granted." Each university will have an affirmative team at home and a negative team away from home.

OREGON'S THIRTY HOLIDAYS TO END

Gov. Chamberlain's Unique Legal "Breathing-spell for Banks" Will Expire Tomorrow Morning.

(SPECIAL TO THE GAZETTE.)
Salem, Ore., Dec. 13.—The financial situation in Oregon has improved materially during the past week and as a consequence the legal holidays which have been in force for more than a month by order of Governor Chamberlain will come to an end tomorrow.

BANKS AND CHURCHES MUST CHANGE NAMES

Merger of Pittsburgh and Allegheny Into a Greater Pittsburgh Brings About Some Old Complications.

(SPECIAL TO THE GAZETTE.)
Pittsburgh, Pa., Dec. 13.—Some of the advocates of the Greater Pittsburgh project, which is now about to become an accomplished fact, have found that there is no rose without its thorn. One of the results of the merger of the cities of Pittsburgh and Allegheny into one municipality is the necessity for changing the names of banks and churches in the two cities, wherever such names are identical. The churches will be obliged to change their names to a greater extent than the banks, and of the churches the Presbyterian and United Presbyterian denominations are most affected. This is because these two denominations use numbers in their names to a greater extent than other denominations. The vexatious matter will be taken up for consideration at the annual meeting today of the Allegheny presbytery of the United Presbyterian church. Whatever course is decided upon at the meeting will probably be agreed upon by the other presbyteries, though there is some talk that a few of the churches will oppose any change of name and that the matter may finally be taken into the courts for settlement. Nearly a score of churches of the two denominations in Pittsburgh and Allegheny possess the same names and half of these, of course, will be obliged to change names in order to avoid confusion.

SOUTHERN BASEBALL LEAGUE IS TO MEET

At Atlanta Tomorrow—Prospect and Retrospect Both Pleasing to the Club Owners.

(SPECIAL TO THE GAZETTE.)
Atlanta, Ga., Dec. 13.—Pleased with the results of the past season and the outlook for the coming year, the club owners of the Southern League are gathering here in anticipation of their annual business meeting tomorrow. Everything seems to be harmonious. Meetings, though it promises to be far from dull. More than the usual amount of business is on the slate for consideration and action. The sentiment expressed by the managers already here indicates that the election of officers will be of an almost perfunctory character. President Kavanaugh is slated for reelection. A contest may come over the selection of a vice-president to succeed Lowry Arnold. Raugh of Birmingham and Coleman of Memphis are both mentioned for the honor. Some of the disputes and squabbles growing out of games last year will come up before the meeting for final settlement, but no serious difficulty is expected in clearing everything up as to give general satisfaction.

SUICIDE IN THE CITY'S LOCK-UP

HUGH MILLER WAS DISCOURAGED AND DEPENDENT.

TOOK A DOSE OF LAUDANUM

Officer Thought He Was Joking When He Told About It—Died at Seven Last Evening.

Homeless, penniless, and discouraged with the failure he had made of his life during the past few years, Hugh Miller, once a skilled blacksmith and railroad man, sat in his cell in the city lock-up for two days and meditated on suicide, and while the man who shared the room with him was sleeping yesterday morning he drank deeply from a bottle containing laudanum and whiskey. Though he was addicted to intoxicants, he had not been taken into custody this time for drunkenness but because he was not wanted at a livery stable where he worked at night. When the officer, with whom he was always on friendly terms, remonstrated with him for getting in trouble with the management of the county house three weeks ago and thus losing the chance of a shelter during the winter, he said significantly, though no significance was attached to the remark at the time, "I'll fix that." When Officer Champion filled his cup with coffee at eight o'clock yesterday morning, he said, exhibiting a bottle: "I've taken a drink of this. Pote—(a laudanum)." Whereat the officer laughed indignantly at the fanciful idea, supposing Miller had recovered his usual happy spirits and was joking again. At eleven o'clock the man was sitting on his bunk and apparently wrapped in thought. Shortly after 3 p. m. Officer Champion went in to release him. He appeared to be sleeping on his bunk and made no answer when his name was called. The officer went in and shook him, but he only half opened his eyes and closed them again. That was the first intimation the custodian had that anything was wrong and the remark about the laudanum came back to him in a flash.

Dr. Charles Sutherland responded to a hurried summons and City Marshal Appleby, Officer Champion and several others began heroic work to save the man. After the hot water, treatment with the stomach pump, and massage, they walked and dragged him about the basement corridors, allowing him to rest on a hastily improvised cot only at brief periods. At six o'clock he had sufficiently recovered from his dazed condition to answer a question or two, and there were hopes that his life might be saved. But about seven, as he lay on the cot for an interval, he quietly breathed his last.

Deceased was a stepson of Mark Howland of this city, a half-brother of Edward Howland, and a brother of Mrs. Thomas Johnson of Milwaukee. A brother, George Miller, was killed last June by a runaway team attached to a Goodman livery hack. The

funeral will be held at the Oak Hill cemetery chapel at 10 o'clock Saturday morning and Rev. R. M. Vaughan will officiate.

Three Police Chiefs Here: Among the spectators at the boxing events last evening were Chief of Police A. E. Barron of Rockford, Chief of Police Welch of Edgerton. Some of the other visitors were: Dr. Dunn of Rockford, D. and M. J. Burton of Sharon, and the following party from Plattville: F. S. Freeman, Charles McKernan, Claude Kerker, Frank Gayhart, John Resulip, and Peter Hertmas.

Dangerous Youngster.
"You'd better be kind o' careful how you talk to me," said Tommy, doubling his small fists and glaring at the other boy. "I've got the artistic temperament, and I've got it bad!"

Ballooning.
The science of aeronautics is almost a fait accompli. There are only two points left for aeronauts to discover, and then the problem will be solved. They are: First, The means of raising themselves into the air. Second, The means of keeping up there. Want ads. bring results.

THE LATE CLARA BLOODGOOD, THE ACTRESS

SPORTING REVIEW.

Jerome D. Travers, the Leading Amateur Golfer of 1907.

WON THREE CHAMPIONSHIPS.

John Swanberg of Sweden a Wonderful Distance Runner—Recently Defeated English Champion, John Duncan, by Eighth of Mile at Stockholm.

Amateur golfers in the north now have a chance to rest a bit after the busiest season in the history of the game in this country. With all the competitive events of 1907 a matter of history, one naturally asks the question, Who is who so far as actual playing ability is concerned?

One does not need the aid of a magnifying glass in searching for the king pin this year. It is hardly necessary to state that Jerome D. Travers is the man. He is, to be sure, the national champion, but his winning of the title at Enfield last July was only one of a series of brilliant achievements, so remarkable as to occasion general comment not only here, but abroad as well, where the tendency is to belittle the American standard. Without resorting to any monotonous summary of Travers—or, for that matter, any of the others—tournament successes during the past season, a brief reference at this time will not be amiss.

To begin with, Travers won three championships—the metropolitan, New Jersey and national—in rapid succession. It was in the metropolitan at the Nassau County (N. Y.) Country club that the young Montclair golfer duplicated his performance of the previous year in the same championship at St. Andrews by winning the low score medal in the qualifying round and then going right through his field. At St. Andrews, Travers had Elton M. Myers for an opponent in the final, while at Nassau it was Findlay S.

JEROME D. TRAVERS.

Douglas, the latter proving a much easier victim. During the early part of the season Travers had been a trifle wild with his driver. In the final against Douglas, Travers drove with his hands, being content to sacrifice a few yards in distance for better direction.

But it was the second shot that told the story. No matter where the balls lay after the drives, Travers' approach almost invariably got inside the others. A somewhat similar state of affairs prevailed in the New Jersey championship. Over the improved Baltusrol course, near Morrisstown, N. J., admittedly one of the most scientifically laid out in the country, Travers went through his field, defeating Max Behr in the final. The professional record is 71, figures that have never been approached by any amateur. Against Behr, however, Travers made the last nine holes in the morning in 30 and the first nine in the afternoon also in 30, giving him a score of 72 for eighteen consecutive holes.

John Swanberg, the Swedish champion, who finished second in both the five mile run and Marathon race at Athens last year, is a wonderful runner. In a recent match at Stockholm against John Duncan, the four mile champion of England, Swanberg ran five miles in 24 minutes and 47.5 seconds, beating Duncan by nearly an eighth of a mile. He led from the start, passing the first mile in 4 minutes and 41.5 seconds. He reached the second mile post 4 minutes and 43.5 seconds later, or 0 minutes and 25 seconds for the first two miles. This is nearly three seconds faster than the American two mile record (9 minutes and 27.45 seconds) by Alex Grant.

Swanberg reeled off the third mile in 5 minutes and 4.5 seconds, or 14 minutes and 25.45 seconds for the three miles. At this point he led Duncan by seventy yards, and the Briton was almost groggily. Swanberg ran the fourth mile in 5 minutes and 12.45 seconds, making his total time to that point 19 minutes and 34.35 seconds. In the last quarter mile the Swede made a glorious sprint, leaving the Englishman far in the rear and creating great enthusiasm among the throng of his countrymen present. The mile he negotiated in 5 minutes.

Progressive Chile.

Chile, which has the reputation of being the most progressive of the Spanish-speaking countries, has over 3,000 miles of railroad and 11,000 miles of telegraph.

SOCIALISTIC TREND

One must not take all the actions of the congressmen and Senators who are sent to Washington to make the nation's law, as characteristic of the whole body corporate. Senator Jeff Davis may rant and tear, others may denounce corporations and offer resolutions and bills for the immediate reform of all existing evils, but the rest of the members of the Sixty-sixth congress can sit quietly back and kill all the oratory offered by their little vote. The Wall Street Journal declares the trend towards socialism and offers the following insight on the subject. In part it is right, but to the greater extent wrong. There are too many good, sober, thorough businessmen in congress to allow radicalism to take a firm hold on the nation and throttle its industries.

"While it will not do to take seriously everything that appears in print in the form of a bill before congress, an analysis of twenty-seven house bills, introduced on the first day of the session, shows that in the lower branch of congress the rampant aim of its members is to get the government to do something for the country in general and their own constituents in particular. One cannot read these bills without seeing that there is wholly wanting the more natural purpose of government to enlarge the liberty of individual effort, as against the idea of increasing the power of the government to do something for somebody."

"In this batch of twenty-seven bills, the dominant theme is, of course, the currency. Five of these propose a variety of non-interest-bearing notes by the secretary of the treasury to the more comprehensive plan of providing a 'currency responsive to the varying needs of business in all seasons and in all sections.' The latter is favored by Representative Lovering of the conservative old commonwealth of Massachusetts and the town of Taunton famous as a maker of cotton mill machinery used all over the world. Evidently the bill is conceived in spite of which is not wholly cognizant of the difference in the varying needs of business between the industrial state of Massachusetts and the agricultural territory of Kansas."

"A most fertile theme of legislative proposal is rather now to the students of banking. It is the recently sprung idea of securing protection for depositors in banks. Of the six bills on this subject all of them propose that the secretary of the treasury or the comptroller of the currency shall assess the average deposits of national banks at from 1/10 to 1/2 of 1 per cent annually to create a special fund to guarantee depositors against loss. Most of these bills are cut after the same pattern, but all have the common idea of taxing all depositors to form an insurance fund out of which to protect depositors in insolvent banks."

"Third in the order of fertility at the initial session of congress were proposals to regulate the treasurer's use of public moneys. One resolution calls for a report from the secretary of the treasury showing the sums of public money deposited in national banks in New York city to November 10, 1907, designating the banks, the amount and the rate of interest charged such banks, together with what bonds were accepted by the treasurer as security for such deposits."

"It never seems to occur to a member of congress that however good a government may be, it may break down under the burden of over-accumulating duties. Fortunately but an insignificant percentage of these bills introduced ever become law. But the flood of bills submitted still proves the confidence of congress in legislation as a remedy for the ills of the people."

Have you ever stopped to consider that Europe really has something to do with an American election? If this be true, who will they choose—a reformer who will upset business or a man of power and ability?

From now on it will be a hot fight for delegations to the national convention. La Follette has just announced he will invade Nebraska and try to win the Tar Heel States there.

This is the time of Church suppers. The tables groan with good things and chicken-pies are fairly swallowed up in the host of other good things that are to be found.

Boast, not knock, was the sentiment expressed at the venison banquet last Monday evening and it is a good policy. Let every citizen remember: "Be a booster—not a knocker."

Secretary Taft is on his way home as fast as steam can bring him and when he arrives the presidential situation will change decidedly.

Chicago is still having trouble with shillings, even though the chorus girls of a certain company were arrested.

Here comes Cummins of Iowa running as fast as he can to get recognition as a candidate before it is too late.

Roosevelt's withdrawal has caused all sorts of trouble for the politicians who had everything planned.

Have you counted those nine days left for your Christmas shopping? If not, why not?

An interpolation.

The old-time revivalist often possessed a gift of gentle satire which stood him in good stead. At a Maine camp-meeting long ago a young man made himself so obnoxious during a prayer that the old preacher rounded off one of his sentences rather abruptly. "Now, Lord," he then continued, "without a trace of irritation, 'we pray that they will in the young man in the fourth seat and make his heart as free from sin as his head is from sense.'"—Youth's Companion.

Careless.

"Oh, George, dear, our wedding must be postponed." "No, darling, no. It must not be." "But it must, George, dear. Father has lost all his money in the market." "You are right, dear. You are right. The wedding must be postponed. I never thought of you, Mabel. I never thought that you would have such a careless father."—Detroit Free Press.

Frank Loser, Actor, Is Missing.

Providence, R. I., Dec. 13.—The police were notified Thursday that Frank Loser of New York, an actor of "The Rose of the Rancho" company, now playing at the Providence opera house, has been missing for two days. Their efforts, as well as those of Loser's friends, to obtain the slightest trace of his whereabouts have been unavailing.

Wood Alcohol Distillery Burns.

Caddigan, Mich., Dec. 13.—The wood alcohol distillery of the chemical plant here of the Cummey, Diggins Co. was entirely destroyed by fire Thursday night. The loss is \$100,000, partly covered by insurance. Eighteen thousand gallons of refined alcohol and a large quantity of raw material was lost. Forty men are thrown out of work.

deposits. This bill is of southern democratic origin, having been submitted by Mr. Shuman of Tennessee. "Williams of Mississippi offers a bill requiring surplus deposits to be distributed to several states 'for the sole purpose of improving the roads therein.' This carries one back to the Jacksonian days of the surplus distribution of 1837, which accelerated the most astounding waste of public funds which was ever before bred in any modern country."

"Even though many bills are like straw men to be set up to satisfy the demand that 'something must be done,' they are nevertheless the kind of straws which show the way the stream is moving. Such are the bills which make provision for taxes on incomes, bills providing for establishment of a postal savings bank system, to amend the tariff on steel products, to enlarge the powers of the Interstate Commerce commission to enable it to fix and establish all freight and passenger rates, and to purchase telegraph lines to be appraised by the Interstate Commerce commission at 'their bona fide market value' for administration after purchase under the postmaster-general."

"It never seems to occur to a member of congress that however good a government may be, it may break down under the burden of over-accumulating duties. Fortunately but an insignificant percentage of these bills introduced ever become law. But the flood of bills submitted still proves the confidence of congress in legislation as a remedy for the ills of the people."

Is Money Tight With You?

If so, you will be pleased to note that your needs in the Dental line may be easily met.

If you select the Right Dentist, Dr. Richards has built up the largest Dental practice in the city during the past 7 years.

187. PAINLESS DENTISTRY.

Just this A. M. one of the most prominent and influential citizens of Janesville consulted him and had an ulcerated tooth extracted and gold in place.

"Dr. Richards, you did that very nicely and satisfactorily to me."

2NDLY, GOOD, HONEST WORK.

Time tells the tale in all things and time only shows up the durability of his work.

3RDLY, REASONABLE PRICES.

You no doubt have paid \$10 each for those gold crowns in your mouth.

Dr. Richards has put out hundreds in this city for just \$5 each, and guarantees them to be the same in every respect—quality of gold, thickness of gold, purity, etc., etc.

What's the use of paying twice as much as necessary, when by consulting Dr. Richards you may get the same work at a less price and all done painlessly in the bargain.

H. P. MOORE.

Modern methods are necessary to secure the greatest amount of success in business—this fact is again demonstrated by the wonderful growth of P. W. Woodworth & Co., the 5c and 10c store people who have opened a beautiful, up-to-date store in this city.

This enterprising firm operates over 100 stores in the United States and handles all of their receipts through National Cash Registers. The fact that this modern and very successful firm are using over \$135,000 worth of National Cash Registers should cause some of the Janesville merchants who are still using the old antiquated cash drawer to investigate the wonderful merits of an up-to-date National Cash Register system.

Drop a line to the National Cash Register Co., Madison, and their agent will call and explain.

Do it now—do not wait.

T.P. BURNS' XMAS OFFERINGS

Beginning SATURDAY, DEC. 14th

YOU'LL HAVE TO HURRY, only nine more shopping days before Christmas, so make your selections early while the stocks are at their best. Our special weekly sales grow more popular every week. This week ought to be an exception on account of the bargains we are offering on fresh, new, clean, holiday merchandise. There are two special features about this Bargain Sale which stand out prominently above all others. First—Stocks are not a jumbled lot where you have to hunt for which you wish to purchase. But they are complete and fine and so arranged for the holiday rush in each section of the store so as to make selection a very easy matter, even for the smallest child without the least delay. Second—Prices mean a saving of a third to a half on regular prices. It is our custom never to carry over the season any ready-to-wear or holiday merchandise. Hence the special low prices.

Special Cloak and Suit Offerings

This is a decidedly unusual trade event coming as it does at the beginning of winter with prospects of plenty of cold weather ahead. Most stores will put off reducing prices till after the holidays, but this store is different and it is an absolute certainty that no prices will ever be made here or elsewhere at any time that shall be lower than at this special sale. Buy early because many of the most effective models are certain to go to first buyers.

A fine silk petticoat makes a handsome and practical Christmas gift. We have them in all colors of fine quality taffeta silk. They are regular \$6.75 values at.....\$4.98.

SPECIAL FUR SALE, THURSDAY, DECEMBER 19th.

On Thursday, Dec. 19th, Mr. E. F. Ryan, a representative of the well known firm of Newton Apple Furriers of Detroit, Michigan, will be at our store with the largest line of high class and medium priced Furs ever shown in America. On account of the mild winter weather you can buy these Furs at a great discount. He will sell outright any of his samples you may select. If you have a separate fur or scarf come in and match them up. This is your chance to buy a practical and handsome Christmas gift at a great saving in price. Don't forget the day and date, THURSDAY, DECEMBER 19th.

FORTY YEARS AGO

Janesville Gazette, Dec. 13, 1867.—A young child of Mr. George Wells was severely scalded on Wednesday evening. The child is doing well.

Shifty Days Hard Labor—Kate Nell and Kate Connors, arrested for vagrancy were sent to jail this morning by Justice Hudson for thirty days at hard labor. They are decidedly tough.

Queen Esther—Mrs. Smith, the wife of the shoe dealer in Jackson and Smith's block, takes the part of Esther in the rendering of that oratorio next week. She is a fine singer and will doubtless acquit herself handsomely.

Another frightful railway accident occurred on Wednesday on the Vermont Central railway at Harlow's bridge. The number killed was fifteen. The other casualties number over forty, many of the very severe. It is feared that more will die, and others will require amputation.

A tremendous snow storm has been raging in the east and extending as far west as Sandusky, Ohio. Railroads have been blocked, bridges swept away and great damage done.

The Senate Committee of foreign affairs, at a meeting Tuesday forenoon had the Danish island treaty under consideration for a long time, but took no action thereon. The London Times in an editorial on the prospective abolition of the tax on cotton by the American Congress says the financial difficulties of the United States are extreme, and expects that the country will be obliged to resort to increased internal taxation and higher tariff, but believes that the people will disavow any plan that has for its object the payment of bonds of the United States and interest thereon in paper.

CHARLES CYPHERS

East Aurora has given the world three famous men—Albert Hubbard, egotist; Edward Geers, horseman; and Charles A. Cyphers, the godfather of a multitude of chickens. And the greatest of these is Cyphers. As a matter of fact this is Hubbard's own opinion, except that modestly forbade him attaching a label to his own fame. Unquestionably the greatest of this trio which has brought fame to East Aurora really is Charles A. Cyphers. He is the original chicken incubator king, and his farm at East Aurora is probably the largest chicken farm in the world. After many years of study and experiment Mr. Cyphers placed his first incubator on the market ten years ago. Since then he has been continually experimenting until his brooders and kindred chicken-raising appliances are world famous. The Model Farm, as Cyphers' East Aurora institution is known, carries some 50,000 laying hens for market eggs. It is equipped to rear 250,000 to 300,000 prime broilers and roasters per annum and 100,000 ducklings. Cyphers' incubator houses have a capacity for 100,000 chicks and ducklings at one time and additional houses are going up every month. There is one incubator collar, for example, holding 140 incubators, with a total capacity of over 50,000 eggs. Such are the figures which convey some idea of the magnitude of this master farmer's undertaking. He is the biggest chicken raiser in the world without doubt. His new company, which owns and controls the 258-acre Model Farm, is incorporated for \$500,000.

Will Sit in Costa Rica.

The court shall sit at Cartago, Costa Rica, but may change the place of residence for sufficient reasons.

The court consists of five judges, one named by each republic from the most prominent jurists. It is indispensable that all five judges should sit in order to constitute a quorum. The treaty is to remain in force for the term of ten years.

PROCEEDS AGAINST GLAZIER.

Gov. Warner Tells Attorney General to Prepare Charges.

Lansing, Mich., Dec. 13.—Gov. Warner Thursday formally notified State's Attorney General Bird to draft charges against State Treasurer Frank P. Glazier of Chelsea, looking to his removal from office. This action follows Gov. Warner's call upon Treasurer Glazier at his home Wednesday and his demand for Glazier's resignation, which the treasurer refused.

The charges against Mr. Glazier upon which the governor will base the removal proceedings grow out of the closing of the Chelsea Savings bank December 2 by Banking Commissioner Zimmerman as a result of Mr. Glazier's financial troubles. He is a heavy borrower from the closed bank, and also an state treasurer had on deposit in the institution the day it was closed \$385,587 of state funds.

"READY" IS SIGNAL FROM EVERY SHIP

SIXTEEN FIGHTING VESSELS ARE
PREPARED FOR CRUISE.

FIT FOR PEACE OR WAR

Officers and Men Are Eager to Start
on Voyage to Pacific That Will
Be Long and
Arduous.

Old Point Comfort, Dec. 13.—Final word of "ready" was flashed from every vessel in the battleship fleet Thursday. In its last analysis this signal meant that the 16 most powerful armor-clads of the American navy not only were ready to start next Monday morning on their projected cruise to the western seas, but are just as ready to go anywhere in the two hemispheres of the world and do any work.

It meant that hulls are sweet and clean, that giant compound engines are restful to be at their task, that officers and men are trained to the hour, that bunkers are overflowing with the heat steam coal the mines of the country can produce, that loaders are choked with ships' provisions, and that magazine doors are closed upon the greatest stores of ammunition ever placed on board American vessels of war.

Ready for Any Service.
The care with which the 16 ships have been groomed for their forthcoming voyage and the completeness with which they have been stored with all the necessities of a battleship's usefulness in peace or war, leave no doubt of the mobility and self-reliance of the great armed force. Even the officers themselves are just a little bit surprised at the amount of work that has been accomplished and the quiet confidence that has marked every step of preparation.

If the ships were destined for immediate conflict little more could be done to make them ready for the fray. The distinctive white and buff paint which has brought so much admiration to the American ships when pitted on parade against the grimy hulled navies of other nations would, of course, have to give way in favor of the safer tone of leaden gray, but that is a matter of only a few hours' work. Gray paint is always carried by the American ships and many of the officers believe it would not be a bad idea to use this color on such a long and hard practice cruise as that upon which they are about to set out.

Cruise Will Not Be a Junket.
Now that all is ready officers and men alike are anxious to get away. The tour is to be anything but a junket and it means long hours and hard work for everybody in the fleet. There is an entire absence of enthusiasm, but a manifest atmosphere of serious devotion to duty surrounding the departure of the fleet. The orders and the published itinerary offer little prospect of entertainment or amusement en route. Sea duty, drills and target practice are the outstanding features of the trip through Magellan straits to the sand dunes and Indian huts of Magdalena bay.

Vast Stores of Ammunition.
The ordinance officers attached to the 16 ships have probably accomplished the most difficult duties in preparing for the cruise. They have had to see to the storage of more than 2,000,000 pounds of ammunition in the carefully protected magazines and to the installation of the new and secret fire control system.

The magazines recently were emptied of all old powder and shell to make room for a supply fresh from the naval arsenals. Armor-piercing projectiles filled with explosive D, said to be the most powerful and effective of all the secret formulas in the possession of the navy's experts, have been placed aboard the ships and the vast supplies of smokeless powder charges have been stowed away under the double protection of silken bags and copper-lined cylindrical tanks. Extra gears for the big guns have also been taken aboard several of the ships.

DE BROGLIE REWEDES HIS WIFE.

Musical Prince Again Married to Estelle Alexander.

Paris, Dec. 13.—Prince Robert de Broglie Thursday announced his marriage in this city on December 10 to Estelle Alexander.

Prince de Broglie and Estelle Alexander were first married in Chicago in August, 1905. His bride was the divorced wife of Sydney H. Velt, of that city. The match was not acceptable to the prince's parents and his father had the union declared void by a French court. The prince subsequently served notice upon his father of his intention to remarry Miss Alexander under the French law.

The prince and princess are musicians, and last year the princess sang in America while her husband conducted the orchestra. The couple have appeared also in London and Paris.

First Outbreak of Violence Means
Martial Law—Miners Plan Arrests of Owners.

Goldfield, Nev., Dec. 13.—Gen. Funston arrived at 12:20 Thursday and was driven direct to the Casey hotel, where he went into conference with Gov. Sparks. Gen. Funston stated to the governor that he would remain here until the labor situation had cleared up and there was no longer danger of trouble.

Gen. Funston says he is determined to take control of the camp under martial law upon the first outbreak of serious violence, but that he will not take any such action until the conditions warrant it.

Deputy sheriffs and constables and detectives employed by the Mine Owners' association are patrolling all of the mines and preventing union pickets or others from approaching nearer than the side lines. The regulars are taking no part in guarding the mines.

Officers of the miners' union assert that not more than 20 men are at work on Combination hill and that most of these are "plants" of the union who have been sent to procure work under the agreement required by the Mine Owners' association in order that the arrest of George Wingfield and the officers of the association may be effected under the provisions of a statute placed on the statute books of Nevada on March 17, 1903, which provides that it shall be unlawful for any person, firm, or corporation to make an agreement with any person for employment which requires that person employed shall sign an agreement to withdraw from any labor organization which he may have joined.

ORCHARD TELLS OF MURDER.

Pictures Pettibone As His Paymaster
for All His Crimes.

Boise, Idaho, Dec. 13.—Showing signs of deep emotion, Harry Orchard, in the Pettibone trial Thursday afternoon, told of the assassination of ex-Gov. Steunenberg. In minute detail he testified in regard to the deliberate preparations for the crime; of his unsuccessful attempt to end the life of the governor, and finally of placing the bomb on the night of December 30, 1905.

Before telling of the Steunenberg murder Orchard detailed his alleged attempts on the lives of Fred Bradley at San Francisco; Justice Gabbert, Justice Goddard and Gov. Peabody at Denver, and of plans which he said were made to kill Sherman Holl, Frank Hearne, David Moffatt, and John Neville. Throughout his story he pictured Pettibone as his paymaster, and in some of his attempted crimes he implicated the defendant as an active participant. In every detail his narrative was the same as given in the Haywood trial.

MISSOURI BANK IS ROBBED.

Three Bold Bandits Get \$3,000 from
Aldrich Institution.

Aldrich, Mo., Dec. 13.—The Bank of Aldrich was robbed of \$3,000 in Jesse James style Thursday afternoon. Shortly before four o'clock three men drove to the bank in a buggy. Two entered the bank, where they pointed revolvers at the cashier and bookkeeper and demanded the cash. The cashier gave them about \$3,000, which was the amount on the drawers, but did not go to the vault for the larger amount kept there.

The bank officers were then compelled to walk in front of the buggy, which was driven to the edge of the town. They were then allowed to return, while the buggy containing the three robbers was driven away rapidly.

"Unwritten Law" Is No Defense.

Webb City, Mo., Dec. 13.—Henry Lacey, who shot and killed W. W. Parker, whom he mistook for the alleged destroyer of his home, was convicted of murder and sentenced to life imprisonment Thursday. Judge Gray charged the jury that there was no such thing as the "unwritten law," and forbade an acquittal on that ground.

CENTRAL AMERICAN COURT OF JUSTICE

TRIBUNAL AGREED UPON BY THE
DELEGATES AT WASHINGTON.

FOR CONSERVING PEACE

Outline of Treaty Providing for
Court That May Be Permanent for Nations of
the World.

Washington, Dec. 13.—The first formal outcome of the Central American peace conference, now in progress in this city and probably the most important to result from that conference was made public Thursday in the form of an abstract of the general treaty agreed upon Wednesday night by the delegates, providing for the establishment of a permanent court to settle all disputes that may arise between the countries of Central America in the future.

The work of the conference in this respect acquires an importance quite apart from that which attaches to the conservation of peace in Central America, for the reason that the arrangement announced probably will, if it should work satisfactorily, be adopted as the basis for the creation of the general international court contemplated in the declaration of the recent Hague conference.

Outline of the Treaty.

In outline this Central American treaty is as follows:
The high contracting parties in order to avoid the employment of force for the settlement of disputes, agree to establish the Central American court of justice, to which they bind themselves to submit all controversies or questions that might arise between them, of whatever nature or origin, if the respective foreign departments cannot settle them.

The court shall also have jurisdiction over such questions as individuals of one Central American country may raise against any of the contracting governments on account of the violation of treaties, conventions, and other cases of international character, no matter whether such individual government supports his case or not, provided, of course, that he has exhausted his legal remedies afforded him by the law of the country of which he is complaining.

The court also has jurisdiction over such cases as may be voluntarily submitted by any two of the said governments.

It shall also have jurisdiction over such questions as any one of the Central American governments may agree with any foreign government to submit to it.

Washington Gossip

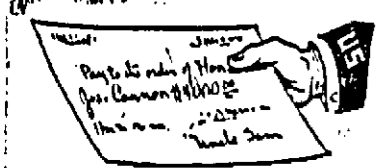

Interesting Bits of News Picked Up Here and There at the National Capital

CAPITAL IS WAKING UP FOR THE WINTER SEASON

WASHINGTON.—The tide of trunks is still coming in and the city is waking up in consequence. The influx of residents has brought a show of white curtains in the windows that is most encouraging. A week ago even the houses that were occupied presented a disheveled appearance, with withered flower boxes, curtainless windows and only clean shades to protect the privacy of home. Now lace, muslin and ribbons predominate and indicate that many have returned.

Many streets are gay with carriages, although there is little done in a social way. The dropping in at five o'clock, with gossip over the tea table, has already begun and every day brings an addition to the circle of those who have come to stay, for, unlike New York and Boston, there are no nearby suburbs to Washington, so that visits over Sunday to the country are almost unknown.

Sunday amusements are almost entirely confined to the country clubs, which are always gay at luncheon time, and the house of Mrs. John R. McLean, who continues her midday meal for 50 or thereabouts, and is only happy when she has large numbers to enjoy her waffles and hot sausages. Then the races in the autumn bring

BIG CHECK FOR CANNON WHEN CONGRESS CONVENES

ALTHOUGH Speaker Cannon may not realize his ambition to succeed Mr. Roosevelt in the White House, he will soon have an opportunity to appreciate how it feels to walk up to the desk of the paying teller at the end of the month and receive a salary nearly as large as that paid the president. Mr. Roosevelt's compensation for running things is \$4,100.00 a month. In December Mr. Cannon's check "for services" will be only \$100.00 less than that of Mr. Roosevelt.

It comes about in this way: For several months it has not been entirely accurate to refer to Mr. Cannon as "speaker" of the house of representatives. As a matter of cold statute law he has been plain Representative Cannon of the Eighteenth Illinois district since March 4, and the house has been without a speaker since that date. Alexander McDowell of Penn-

sylvania, clerk of the house, will be the acting speaker when the Sixty-ninth congress meets, and will wield the gavel until a de facto speaker has been chosen.

The salary-increase law enacted last winter raised the compensation of the speaker to \$12,000 a year. Since the adjournment of congress Mr. Cannon has been receiving the salary paid every other member of the house—\$625 a month. The difference between this and \$1,000 a month—the speaker's stipend—has gone into an account which is placed to the credit of the speaker-to-be.

When congress meets there will be approximately \$3,000 in this fund. For the month of December Mr. Cannon's compensation will be \$1,000, so that, in round figures, with the \$3,000 added, he will receive \$1,000 in salary at a season when most men's expenditures exceed their incomes.

"DRYS" TO DEMAND PLANK IN OLD PARTY PLATFORMS

ACTUAL statistics show that 33,000,000 of the 80,000,000 inhabitants of the United States now live in communities in which the law does not permit the sale of alcoholic beverages.

In this condition of affairs can be found the reason for the widespread comment created by the "cocktail" incident at a luncheon given by Vice President Fairbanks to President Roosevelt in Indianapolis.

The liquor question cut a figure in nearly every state campaign closed by the recent elections. In Kentucky New Jersey and Delaware it was the decisive issue. It swept from power the democratic party in Kentucky and came near ousting the republicans from entrenched power in New Jersey. And, singularly enough, the highest vote ever polled by the prohibition party in a national election is only a little more than 250,000 out of a total vote of about 13,000,000. That was in 1904.

PATHOS IN DISCHARGE OF THE AGED IN DEPARTMENTS

ONE of the sad features of departmental life here is the number of old people who are dismissed because of inefficiency due to old age. The other day it was necessary to drop from the government pay roll a clerk who had attained the respectable age of 77 years. As long as possible the secretaries take care of those who have had long government service, shifting them to easier work, but of course, reducing their salaries.

An old woman came out of one of the departments one day not long ago. There was despair printed upon her countenance. "I went in and asked that my husband be restored to his position," she said. "He is only 77 and he is just as efficient as any of these young men around here. Why, think of his experience. He has been 42 years taking care of the interests

of the government. Clever—there is no one like him. There's nothing he doesn't know. The government cannot run as well without him. I wish you'd see him. He is as hale and hearty as he ever was. He's a fine man, a fine man, I tell you, and the government is greatly indebted to him. If he had been an officer of the army or the navy they would have pensioned him fifteen years ago. Many of the army and navy officers he taught their business. And now he's dropped because they say he's too old."

Causes like this wring the hearts of departmental heads. There is, however, nothing to do but to order dismissals when clerks become too old. The work must be done. It is piling up more and more every year and congress is signally about making appropriations for clerical help.

They Like It.

One of the mysteries of this world, and little short of a miracle, is why people will allow themselves to be galled so easily.

In Danger.

BITS OF HUMOR

A LAST RESORT.

She—Do you think that marriage is a natural bent?
He—Hent? No; it's a case of broke where the man is concerned.—Chicago Journal.

THE MAIN POINT.

"How can you want to marry my daughter if you have never met her and know nothing about her?"
"But I know all about you, sir."—Chicago Chronicle.

A DIFFICULT TASK.

"Jack, dear, I do wish you would get another photo taken."
"How often have I told you I will not?"
"But why not? (Then, thoughtfully, after a pause). Are you afraid of being asked to look pleasant?"—Punch.

THE FINISH.

"Miss Screech puts an artistic finish on every song she sings, doesn't she?"
"Yes, that's what I enjoy the most."
"What?"
"The finish."—Chicago Chronicle.

ROBBED AT BOTH ENDS.

Mr. Henpeck—But, my dear, you will not need all that money to go shopping.
Mrs. Henpeck—I will need this to establish my credit. The goods I will have charged.—Philadelphia Telegraph.

NOT A GRAVE ERROR.

Druggist—I'm afraid I made a mistake in filling that prescription you gave me last week.
Doctor—Why do you think so?
Druggist—I hear he is getting better.—Cincinnati Enquirer.

REASON WHY.

She—I wonder why Toodles dislikes dancing so much?
He—Oh, he met the girl he married at a dance, don't you know. Painful associations. Eh—what?—Ally Sloper.

WHAT SHE EXPECTED.

"Now, Jack! You know you promised to take me to the football game."
"But the game has been postponed."
"Oh, I know you'd find some excuse."—Chicago American.

THE REASON WHY.

Professor—Let me see your contention to make so great musician of your little boy, but he must practice more than he does.
Mrs. Blenkins—It's all 'is father's fault, professor. 'E gives 'im two-pence a day not to go ahead the pianer.

TARAL, RIDING STAR.

Famous Jockey, About to Leave Turf, Rode Many Winners.

TWENTY-SIX YEARS OF WORK

During This Time He Has Been First in Nearly 2,000 Races and in One Year Captured Three Star Events. His Riding Abroad.

By THOMAS F. CLARK.

The American jockey, Fred Taral, who has just completed his twenty-sixth year of continuous riding, established a record without a parallel in the annals of turf history. During this long period of active service in the saddle he has ridden nearly 2,000 winners and was champion jockey both in America and Austria-Hungary.

It may also be said to Taral's credit that in his career as a jockey he has never been before the stewards for a questionable or suspicious ride. Taral was forty years of age on Aug. 2 last and is probably the oldest jockey in active service. In 1900, having become too heavy for the American low scale of weights, he signed to ride in Austria-Hungary for Herr von Pechy, with whom he has been six seasons, and he has been at the top of the list four times and done much good work in that country.

Taral is the only jockey who has won the three big events of the metropolitan turf in one year—viz, the Brooklyn handicap on Dr. Rice and both the Suburban and Metropolitan handicaps with Ramapo. He also won the Futurity with Domino. Taral has won the most valuable stake in Germany, the German Derby, and the richest prize in Austria-Hungary, the King's prize, each worth \$25,000.

Before long Taral will take a well deserved rest, but the name of Taral will still be before the racing public, as his fifteen-year-old son John is apprenticed to Baron Springer's stable in

Austria, and the boy showed himself to be a worthy successor to his father during the past season.

A \$50,000 monument for his horse is a feature that has been incorporated in the will of Henry Graves, the oldest settler of Chicago.

A plowman racing man and ever a lover of horses, Mr. Graves has provided that the costliest monument ever erected for a horse will be placed in Washington park. It will memorialize Ike Cook, a famous trotter which he owned fifty years ago.

Ike Cook had a record of 230, which in those early days was remarkable time. In fact, Ike Cook was the first horse to make that mark on a one mile track in the state of Illinois. The animal was famous throughout the country and, with Mr. Graves driving him, won many great victories.

WOULD BAR HOPPLES.

Trainer Frank Wilson Says They Should Not Be Used.

Frank Wilson, Rushville, Ind., who, with Dick Wilson, the well known driver and trainer, owns Aileen Wilson, 2:04 1/2, the little pacing mare that was the sensation of the grand circuit this season, having lowered the track record of Virginia to 2:06, formerly held by Joe Patchen, is violently opposed to hopples and advocates a law prohibiting their use.

"Hopple should be barred," said Wilson, "because they hold the pacing horse down. He cannot break and is forced to go at an unnatural gait. He is forced to allow himself to be driven, and any amateur driver can drive a winning race. The amateur has just the same chance as the expert. Not only Dick Wilson, but such drivers as George and McHenry won't use them. In fact, all of the best drivers in the country will not use them. Laws should be passed either in the several states or in congress prohibiting their use. Hopple are responsible for three-fourths of the accidents that occur on the race tracks today.

"The horses fall when they break and not only endanger the life of the driver, but that of every other man in the race. The horse is forced to pace. He cannot do anything else. It prevents the racing game from becoming a science. The time will come when the man who does not use hopple will have a greater value fixed on his horses. Racing then will be conducted from a scientific standpoint. It will be the driver as much as the horse and not a mere matter of machinery. It will put the first class trainer where he belongs and will develop driving and training.

New Football Captain.

At a meeting of the Dartmouth football team recently George Francis Kennedy, '08, of Boston was elected captain of the team for next year.

The acquittal of Ford and the refusal assigned by the jury, that there was a link missing in the evidence, has again forced upon the prosecution the importance of Hine's testimony. The latter, it is said by the prosecution, has held out for full immunity, which Hiney has refused to grant.

Mrs. Katie Morris Adjudged Sane. St. Joseph, Mo., Dec. 13.—After a trial in probate court, Mrs. Katie Morris, who has large real estate interests in St. Joseph, was declared sane by a jury. James Morris, her husband, was alleged to have conspired with others to have her placed in an asylum in order to get possession of her property. Mrs. Morris contemplates suit for divorce.

E. L. Jones University Regent. Madison, Wis., Dec. 13.—Enoch Lloyd Jones was appointed Thursday by Gov. Davidson as a member of the board of university regents to succeed his brother James, whose death occurred one month ago. Mr. Jones will be the representative of the agricultural interests on the board.

The Greed for Gold. "It's a deplorable thing, this greed for gold," said the mournful person. "Of course," answered Mr. Sirlus Barker. "If the greed for gold were not so general, you and I might have a chance to get some. It's a case of too many people recognizing a good thing and trying to get in on it."

Painful to Her. "It's all well enough to say 'Ignorance is bliss,'" began Miss Vernon. "What's the matter now?" asked her chum. "Tom gave me an engagement ring last week and I can't find out what it cost him."

Man's Better Nine-Tenths.
A Cornell professor is endeavoring to make the point that women and men are equals. It is safe to say that the ladies will not submit to any such reduction to ranks without a bitter struggle.

Sensible Advice.
"Be good and kind," said Uncle Eben, "but at the same time don't be too trusting. Do fact that you honestly own an umbrella and some account done borrowed and winter keep no rain off you."

FREAK PLAYS IN ROYAL GAME.

Records on Golf Grounds Very Much Out of the Ordinary.

On one occasion a player handicapped himself to the extent of playing all his shots with one leg held up, and the only crumb of satisfaction that some people can get out of the story is that the man missed nearly every shot and lost his wager. Also, who has not heard of men trying to play with one eye covered up, others who have had but one club against the full set used by their opponents, and others who have agreed to put with nothing but their umbrellas? On one occasion a golfer played a round with a champagne bottle against a man who had all his clubs, and it is a sad thing to know that it is on record that the man with the champagne bottle won! There are said to be various Scots who have driven balls off the face of expensive watches without at the same time driving the faces off the watches, and an American variation of this form of golf freakishness, as practiced with much success on one occasion, was to drive a ball off the top of a hen's egg, which had been dotted at one end to make it hold the ball, but not otherwise damaged.

Tennyson and the Socialist.

Tennyson figuring as a champion of the imperiled rights of property is thus quoted in William Allingham's lately published "Diary." "I was once in a coffee shop in the Westminster road at four o'clock in the morning. A man was raging, 'Why has so-and-so a hundred pounds and I have not a shilling?' I said to him, 'If your father had left you a hundred pounds you would not give it away to somebody else.' He had not a word to answer. I knew he hadn't."

What Happened.

Eva—"Dear me! I really believe that Jack was a pugilist at some stage of his career." Katherine—"Gracious! What in the world gave you that idea?" Eva—"Why, the other evening when we were sitting on the sofa little Tommy peeped in the parlor and shouted 'Break away!' and Jack jumped all the way to the other end of the room. After that he said in confusion he was thinking about referees."

Real Sweet.

"Please let me take your picture, miss," pleaded the young man with the camera. "I declare, you are sweet enough to eat." "Gracious!" laughed the pretty summer girl; "and is that why you wish to put me on a plate?"

Many Bricks in Chimney.

When the chimney on the old Tristram Goldthwaite house in Fort Hill, Me., was torn down recently 10,000 bricks were taken out, or enough to build four ordinary chimneys. This one was built 195 years ago.
